

# Diamond Select Professional Infield Plus

**Diamond Select Professional Infield Plus** has been designed to enhance the overall performance of your infield. It is the ultimate soil blend, customized to meet each groundskeeper's environment, level of play, and budget. By combining a multitude of very specific soil amendments at a rate of 20% by volume with clay and sandy loam this material gives any field the professional look and feel that all groundskeepers, coaches, and players require.

**Diamond Select Professional Infield Plus** provides a high quality playing surface to programs looking to increase their field's playability. It is an excellent solution for both wet and dry environments. Once compacted, this material will reduce soil migration, increase recovery, increase soil strength, and play extremely true. Though this blend was designed for Professionals, it is an outstanding playing surface that can be used by all levels.

#### Recommended Application when renovating an infield:

**Diamond Select Professional Infield Plus** should be put down to a depth of 3" - 6" on a standard infield renovation. Once laid evenly, we suggest watering your infield with 1/2 inch of water, rolling it with a 1000 pound roller to achieve proper compaction, and then laser grading it out at 1/2%.
