

DIAMOND SELECT RED INFIELD CONDITIONER

Diamond Select Red Infield Conditioner is a unique blend of vitrified shale particles that have been specifically designed to be amended into the playing surface of an infield, at a rate of 25% by volume. Due to its great longevity and particle strength, this material is one of the best Infield Conditioners.

The design philosophy behind using vitrified shale as an **infield conditioner** focuses on increased soil stability, improved drainage, and the heightened recovery of an infield.

With a rich, red color that adds focus to any playing surface Diamond Select Red Infield Conditioner gives an infield the professional look and feel that all coaches and players require. It packs well, drains well, and stays put.

BENEFITS

- Greater absorption
- Improves moisture retention
- Greater volume
- Improves soil structure
- Reduces rain delays
- Prevents rainouts
- Improves drainage
- Reduces puddling
